Interactive Digital Art and Design SE608
Weekly Meeting Log

Week Starting:	November 2nd To Novmber 8th			
Meeting Details	**START TIME**	**13:30**	**END TIME**	**13:40**
Student Name:	Liam Treacy			

Description of work completed since previous meeting Notes : Also record project backlog, use notes page as required
This week Muhammed and I met on Thursday due to something I had to attend on Wednesday. Over reading week I made some progress, I made my enemies follow the player, expanded the level, made the sky orange and made some FBX models. I also worked on my combat, however it is very flawed, and not working fully. I have also added a start menu, and plan to add the other main UI elements soon. Muhammed seems happy, it seems I am on good pace, even if to me, I feel slightly behind.

Tasks to be completed this week **Notes: record any additional tasks on notes page as required.**	
1	Add an equitable item (Half working)
2	Make weapons more obvious (Swords)
3	Keep building up the first level and make it as perfect as possible for December 10th.
4	Add some sort of flying projectile (Bricks)
5	Polish and fix bugs and issues as they are found
6	Keep making FBX Models

Supervisor Comments
Muhammed would like me to keep working as I am. Add flying projectiles was the main request It seems I am on pace, he said to have my game as perfect as possible for December
