This week I had my first proper meeting with Muhammed. We went over areas of my PoC that needed work, mainly scaling back and some rewrites of areas where there was a misunderstanding. It was recommended I looked at a classmates to get a better idea of how to write the document. Later in the week, UPBGE proved to be causing too much trouble, so I opted to change to Unity, I will discuss with Muhammed next week to potentially switch engine. I sent Muhammed an email on Thursday evening of my new PoC before I went to work for the afternoon. The weekend was spent trying to work with UPBGE but I am really not enjoying using it and am planning to try and switch.
